EAGLE IS PREYING
ON FLOCK OF LAMBS

Reward of \$35 Has Been Put on Head of Destructive Bird.

[Special to The Times-Dispatch.]
Pulaski, Va., February 28.—A large eagle has been destroying lambs on the farm of W. F. Flanagan in the extreme eastern end of the county. Ac-

cording to reports received here, the loss is estimated at \$250 as a result of the bird's preying upon Mr. Flanagan's flock. The bird has been seen several times, but not within shooting distance. It is reported here that Mr. Flanagan has put a reward of \$35 on the eagle's head, hoping thereby to interest some expert hunter. The younger the lambs the better they seem to please the appetite of the bird, which pounces upon its prey and crushes out their lives with one grip of the talons, and then with its beak penetrates the skull near an eye and feeds solely upon the brain of the lamb.
